

Graphic Whizard 6000

The most popular number/perf/score/slit machine in the business. Operating at speeds up to 6000 sheets per hour, the "6000" makes fast and easy work of your finishing needs. With the ability to upgrade to another model at any time in the future, combined with a 5-year limited warranty, you can't go wrong with the "6000".

Features

Electrical: 115V/60Hz/5A or 230V/50Hz/5A

Maximum Stock Size: 18" x 18" (45 cm x 45 cm)

Stock Weight: 12# - 12 point (45 - 250 gsm)

Dimensions: Length: 44" (1.12m) Width: 27" (0.69m) Height: 16" (0.26m) Weight: 106 lbs. (48kg)

Drive Unit type: Electric Solenoid

Maximum number of numbering positions: 10 per head per sheet

Maximum number of heads: 2

Repeat Action: Consecutive, 1x, 2x, 3x, 4x

Head Rotation: Lockable throughout 360 degrees

Numbering Heads: 6 digit standard (with 2 drop) 8 digit condensed optional "No" and letter prefix available

Impression Control: Electronically variable, crash up to 10 part sets

Inking System: Ink pad with reservoir

Perforating Options: 2,4,6,8,12 TPI

MICROPERF Options: 42 or 72 TPI

Scoring Options: Wide (standard) or narrow

Slitting Blade: Optional

Speed: 6,000, 11 x 8.5"/A4 sheets per hour

Minimum Stock Size: 3"W x 5"L (7.6 cm x 12.7 cm)

Stand: Optional

Register: Microprocessor controlled to .010" (0.25mm)

- * 6,000 standard-size sheets per hour
- * Up to 10 numbers per head per sheet
- * 1 or 2 numbering heads
- * Heads rotate & lock throughout 360 degrees
- * Tabletop model; optional stand available
- * Crash number up to 10-part sets
- * Feed sets from the UNGLUED or glued side
- * Create "snap sets" while numbering
- * Perforating options: 2,4,6,8,12 TPI
- * Microperf options: 42 or 72 TPI
- * Scoring options: wide (standard) or narrow
- * Optional slitting blade available
- * Ability to control depth of each perf/score/slit independently
- * Automatic feed
- * Accurate .010" register
- * Microprocessor controlled with forward and backward stepping for easy programming

Graphic Whizard 8000-P

Heavy duty construction makes the GW 8000 ready to run all day, every day. A 100-job memory provides a fast job change over. Microprocessor control give the operator the ability to position up to 100 numbers per head, anywhere on each sheet. Feature for feature, spec for spec, it is the best value in the industry. Don't forget...the "8000" can be field-upgraded to the "12000" at any time.

Features

Electrical: 115V/60Hz/5A or 230V/50Hz/5A
Stand: Optional
Speed: 8,000, 11 x 8.5"/A4 sheets per hour
Number of Job Memories: 100
Maximum number of numbering positions: 100 per head per sheet
Maximum number of heads: 2
Numbering Heads: 6 digit reverse standard (with 2 drop) 8 digit condensed optional "No" and letter prefix available
Head Rotation: Lockable throughout 360 degrees
Repeat Action: Consecutive, 1x, 2x, 3x, 4x
Inking System: Ink pad with reservoir
Perforating Blade Options: 2,4,6,8,12 TPI
