How Can We Help?

Power. Productivity. Value. Get more for less with BCC.

Professional mailing can be complicated and costly. Turnaround times shrink. Profit margins tighten. And the rules seem to change with the weather.

Fortunately, at least one decision doesn't have to be difficult. If you can click a mouse, you can master Mail Manager 2010 — and bring a high-performance PC-based solution to mailing systems of any size and specialty.

BCC Software developers build solutions for real-life mailing situations: the rush deadlines, the varied job types, the operators ranging from veteran to rookie and everything in between. Mail Manager 2010 tackles those challenges with an intuitive, flexible platform that gives you total mailroom control. At a value-added price that puts increased profits in your pocket.

Mail Manager 2010 delivers:

- **Easy-to-learn, easy-to-use software** — minimize training downtime for higher productivity.
- **Optimized postal presorts** — to ensure full postal discounts.
- **Streamlined database maintenance** — intuitive design lets you do more with your list data.

- **Powerful label-designing functions** — elaborate mail merges, graphics, formatted text, even multiple label formats within a job. Not to mention email, too.
- **Minimized production costs** — quick turnarounds, to take on more jobs in less time with true background processing.
- **Address correction service integration** — you're just a click away from BCC's array of affordable MOVE Updates Services.

For proven solutions, follow the leader. Choose Mail Manager 2010 from BCC Software.
